**What was the employee doing before the incident occurred?
Describe the activity, as well as the tools, equipment or**

material the employee was using.

Employee was cleaning the floor after lunchtime with a mop and wet water. They are not working at this point. Suddenly, a cart rolled off from the top of the ramp and hit him.

What happened? Tell us how the the injury occurred.

Employee was surprised when they were hit by the cart and thus slipped, hitting his head on a nearby packing machine. Machine is off.

Type of incident

Injury

Describe the injury or illness? Tell us the part of the body that was affected and how it was affected

The employee's head got an open wound and he spilled blood on the machine and the floor. His head needed stitches.

What object or substance directly harmed the employee?

It is not direct harm. He hit the object. However, this was caused by the falling cart hitting him.

Upload photos of the incident

Cannot provide photo of head injury as we did not have any cameras at the time. As of writing, the head injury is stitched up and employee is still in the hospital.
