Product Overview

Product name

SenceMatic Smart Watch

Product code

53M2yWL

Product description

SenceMatic Smart Watch is a reliable fitness companion for keeping track of the user's health goals. Using its advanced sensor technology, users can monitor their daily activity levels, heart rate, and sleep patterns—all in one device. Data collected from this device can be connected through the SenceMatic app, available for iOS and Android users.

Purpose

This device allows users to track their heart rate, calories, steps, sleep patterns, and other health indicators in one device. They can also set fitness goals and monitor their progress at a glance.

Performance Tests

Test

Test # 1

Description

Appearance

Acceptance criteria

The smartwatch must gain satisfactory scores in three areas: comfortability, convenience, and aesthetics.

Results

The device gained satisfactory marks on aesthetics thanks to its sleek and stylish appearance, moderate marks on comfortability, and low marks on convenience.

Test # 2

Description

Functionality

Acceptance criteria

The smartwatch must reach an average score of at least 7 in two areas: basic functions and app synchronization. The scores will be coming from the testers.

Results

The app has obtained a score of 8.5 in basic function and 9 in app synchronization. The average score for the functionality test is 8.75.

Issues/Defects
