First Name: Hester

Last Name: Funk

Role in the Company: Safety Officer - APAC

Is the AED in place? Yes

In this inspection, did you notice that the AED indicator or status light was flashing, or showing "rescue ready" or "operational"? Yes

Did you notice any cracks in the exterior of the device, or its sockets? Yes

Is the battery within the expiry date as shown on the battery or packaging? Yes

In this inspection, did you change the battery? No

Battery is okay. But also, we don't have extra battery in storage.

To do | Priority: High | Due: 18.04.2025 15:13 PST | Created by: SafetyCulture Staff

Restock AED batteries

Is there a set of sealed AED pads that are within the expiry date? Yes

In this inspection, did you change the pads? Yes

Check the following that apply:

Prep pack (e.g., scissors, razor) present ✓

AED signage in place ✓

AED is visible ✓

AED is accessible ✓

Upload a short 5 second video of Status Indicator

[aed-status-check-vid.mp4](#)

Upload a photo of pad expiry date

Expiry date no longer readable on AED but still on box.

Photo 1

Upload a photo of battery expiry date

Expiry date no longer readable on battery but still on box. Came with AED pack as a set.

Photo 2

Do you want to make any notes on this maintenance log?

N/A
