NASCAR pit crew challenge

A NASCAR pit crew is tasked with changing four tires and adding two cans of fuel in 7 seconds. They epitomize teamwork and efficiency. The NASCAR pit crew challenge places you squarely in the action. We will equip you with the actual equipment the professionals use as you try your hand at being a NASCAR pit crew member.

As part of a team, you will receive coaching from the professionals that pit Shane Van Ginsbergen's #88 SafetyCulture Chevrolet. Once you are equipped with the knowledge and the tools, you will then compete in a tournament style NASCAR pit stop competition. The fastest team will be crowned the champion.
