

# Lone Worker

# Lone Worker

**Definition:** A worker that is **out of sight**, or **out of earshot**, of a colleague. For an extended period, or temporarily.

# The **risks** are broad

## Social risks

Unknown persons  
Verbal abuse  
Loneliness

Predatory behaviour  
Physical abuse

## Environmental risks

Extreme temperatures  
Hazardous substances  
Animal attacks

Working at heights  
Heavy machinery  
Low light

**Wells Fargo employee found  
dead days after clocking in**

# Fatal incidents occur **every day**

## Automotive

### **Mechanic Died Alone Due to Lack of Lone Worker Policy**

## Hospitality

They're often alone on a floor, cleaning a vacant room, back to the door, the vacuum's loud drone silencing all sound. A perfect setup for a horror movie.

## Construction

### **Lone worker falls to death from scaffolding at Hope Island, Gold Coast**

A MAN found dead at a Gold Coast worksite could have been lying there overnight.

## Agriculture

### **Man Dies in Illinois Grain Bin Accident**

Brian Satorius, 47, was president of Menard County Farm Bureau

## Retail

### **Wells Fargo employee found dead days after clocking in**

Panic

Released

# Live Job Control

Deploy a Lone Worker solution easily across your workforce.

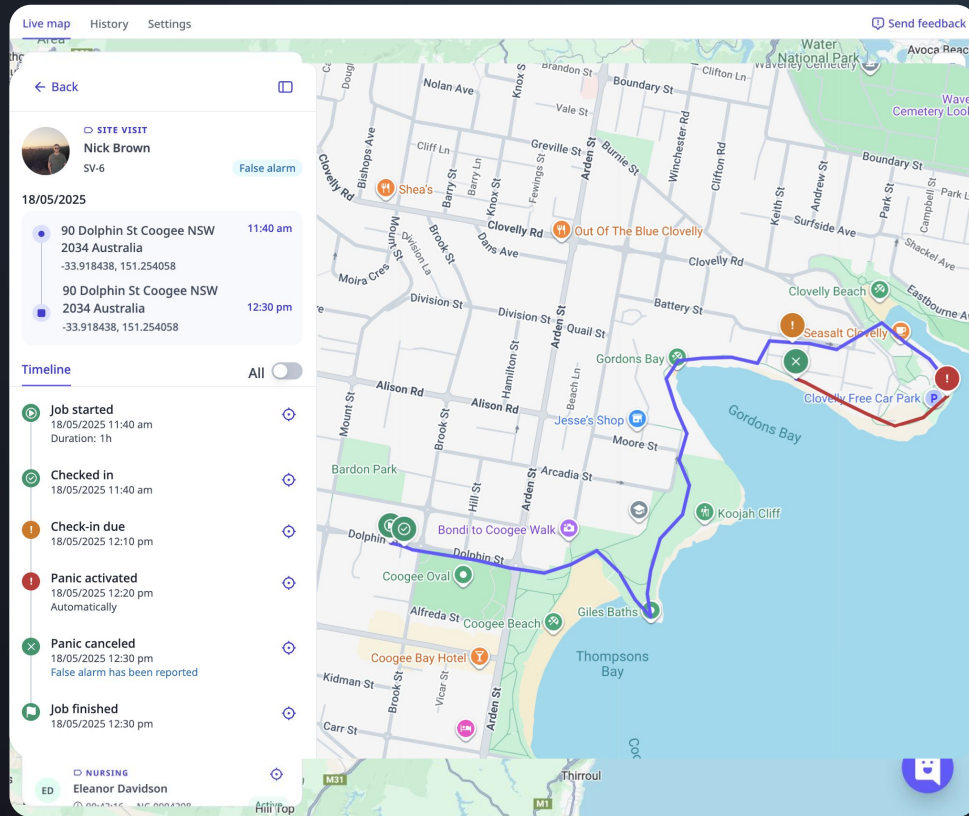

The Lone Worker feature for iOS & Android instantly gives your team access to start a job, check in and raise an issue if ever in trouble.

Released

# Live map

Feel confident you have a proactive safety solution in place.

Gain real-time visibility over teams.  
Track live jobs, detect falls and  
manage active duress alerts.

Released

# Set your escalations

In case of emergency, set up exactly who needs to be notified when a alarm is raised.

You can be notified by SMS, email, or push notification, or utilise our integrated 24/7 monitoring service.

### Alert escalations

Configure up to three escalation points and assign contacts to be notified when a panic is started from users in this group. Contacts can be notified via in-app push notifications, email, SMS, or automatic call.

☒ Enable automated call

Notify	Contacts	Email	SMS	Automated call	
Immediately	Aiden Miller	✓	✓	✓	
+ 5 minutes	Nick Brown Ava Williams	✓	✓	✓	⋮
+ 15 minutes					⋮

### 24/7 monitoring

Set up 24/7 monitoring to have human agents respond to panic alerts by calling the worker, alert contacts, and emergency services.

Protocol template (required)

Worker > Contacts > Emergency (Police Default)

Notify	Recipients
1st escalation point	Worker
2nd escalation point	Contacts Nick Brown Jane Smith
3rd escalation point	Emergency (Police Default)

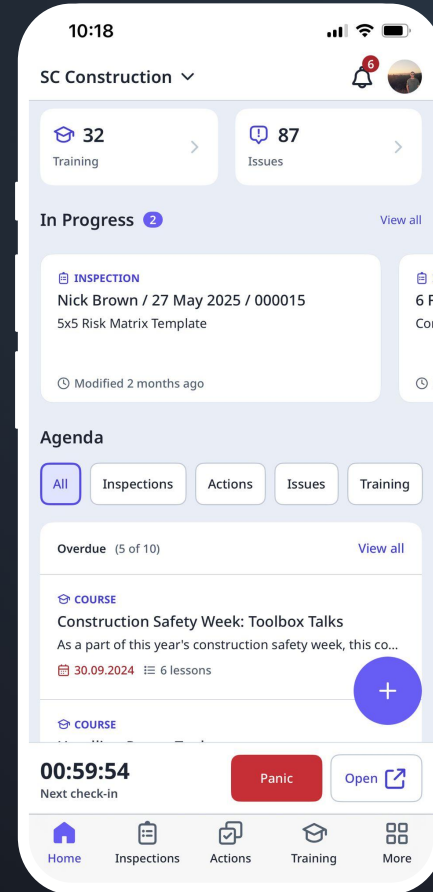

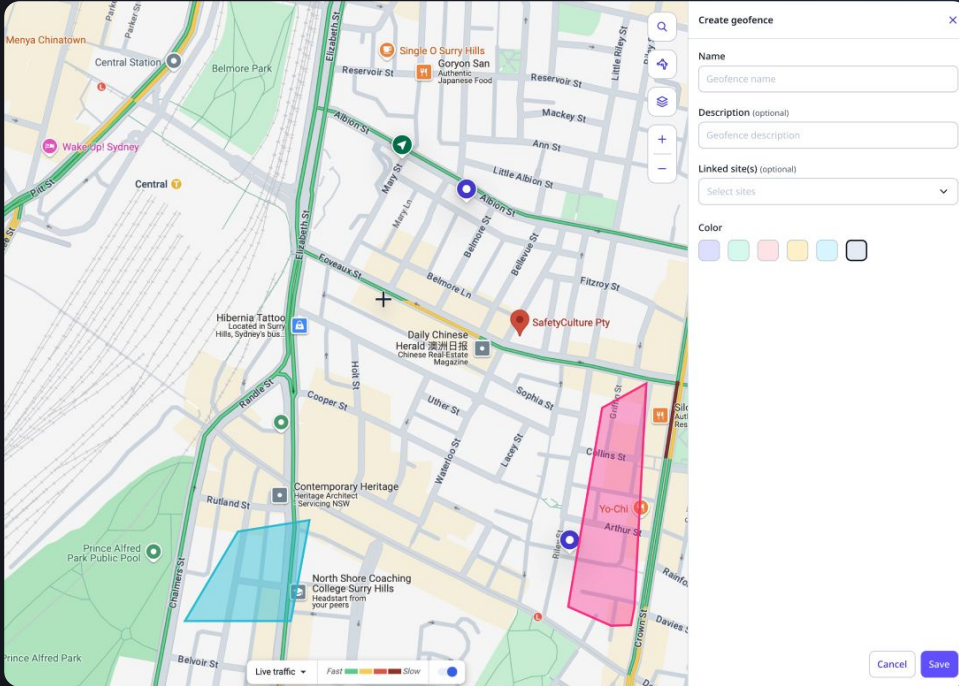

Released

# Multitasking made simple

If you have other things to take care of inside SC, minimise the job and navigate elsewhere.

Still have access to the panic button and be prompted to check in or add time where this expires.

Roadmap

# Geofencing

Set an area of relevance to trigger workflows including site sign on, clock in/clock out notifications, inductions, and more.

## Roadmap

# Improve accessibility with connected devices

Integrations with discreet Bluetooth wearables and handheld satellite devices to ensure that your lone workers stay in touch, even outside of mobile coverage.
