**SafetyCulture**

**Everyday, millions of frontline workers  
fail to get the gear they need  
due to traditional procurement.**

# Sourcing for the frontline is broken...

# Sourcing for the frontline **is broken...**

Lifecycle & replenishment requires process to start again every renewal

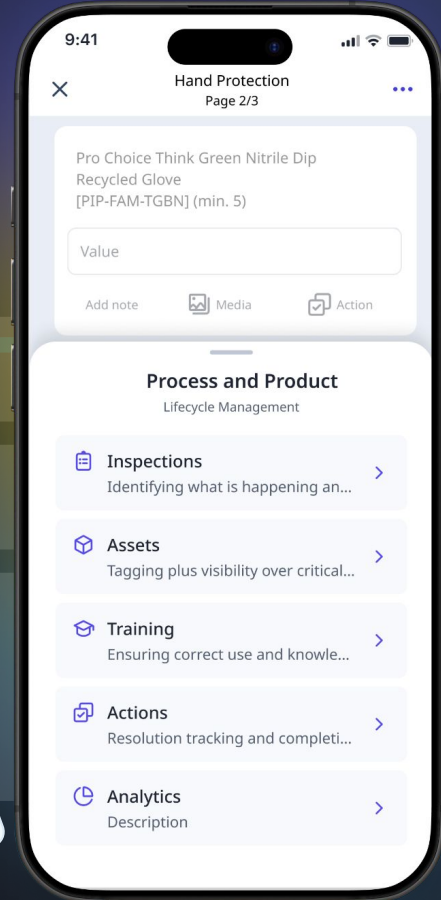

# SafetyCulture is at the heart of **needs procurement**

## Existing SC Users

1 Inspection done

2 Need identified

3 Items automatically  
ordered based  
on predefined rules  
& approved items

# Order & replenish via inspections

- Customer completes inspections according to their operational processes
- Each question can trigger specific products to be ordered, at predetermined quantities based on the answer
- Orders are correlated back to assets, inspection and site.

~~Virgin~~  
active

A man in a blue t-shirt and black shorts stands on the left, looking towards a man in a black t-shirt and black shorts who is in a low, athletic starting position on the right. They are in a gym with red walls and various exercise equipment. The man in black is leaning forward with his hands on the floor, ready for a lift. The man in blue is observing him. In the background, another person is visible, and there are weight racks and barbells. The lighting is warm and focused on the two men in the foreground.

GAME CHANGING CLASSES

A photograph of a warehouse aisle with high blue metal shelving units. The shelves are stocked with various safety equipment. On the left, there are several orange and grey safety harnesses hanging from the top shelf. Below them are large coils of thick rope in orange, grey, and blue. Further down, there are stacks of white and grey work gloves. On the right side of the aisle, the shelves are filled with numerous yellow and white hard hats. The perspective is looking down the length of the aisle, which recedes into the distance under bright overhead lights.
