Training

# Putting the AI into TrAIning

Create

# Create with AI

Power up with our integrated AI tools making course creation a breeze.

### Create new courses

Generate engaging courses and lessons with a click of a button. No research or brainstorming required.

### Digitize your workplace

Convert static docs into dynamic, interactive training by uploading or snapping a photo or a file.

### Expand courses

Use AI to suggest new lessons, slides, or populate question & games slides.

### Speak your team's language

Instantly translate your course into 100+ languages with AI Translate.

### Quick text editing

Go from dull to engaging in just a click. Rewrite, adjusting tone, extend or reduce text with AI Text Editing.

### Platform excellence

We turn insights into action by suggesting courses from trends in the SC analytic suite.

SC

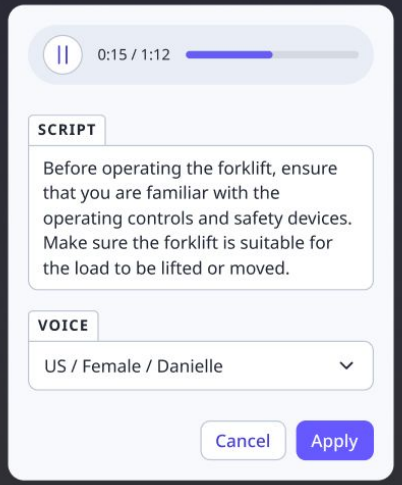
Better

Available

# Professional course narration with AI

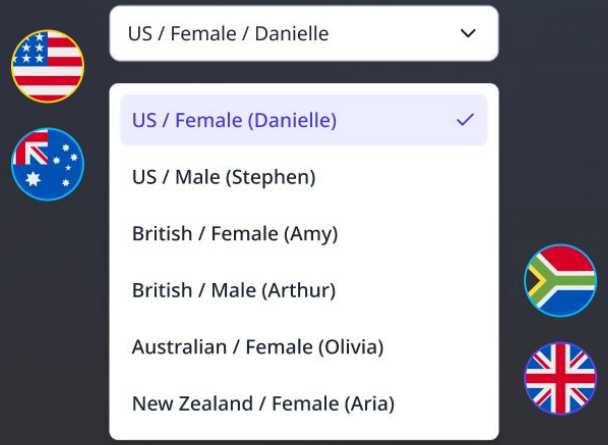
## From script to voice, instantly

Instantly generate professional voice overs without the need for manual recordings or external voice talent.



## Make learning stick

Enhance comprehension with natural AI voices that help frontline workers of all literacy levels grasp and retain critical information.



Training

# Feature look ahead

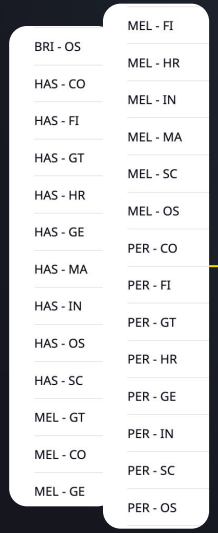
**Dynamic assignment:**

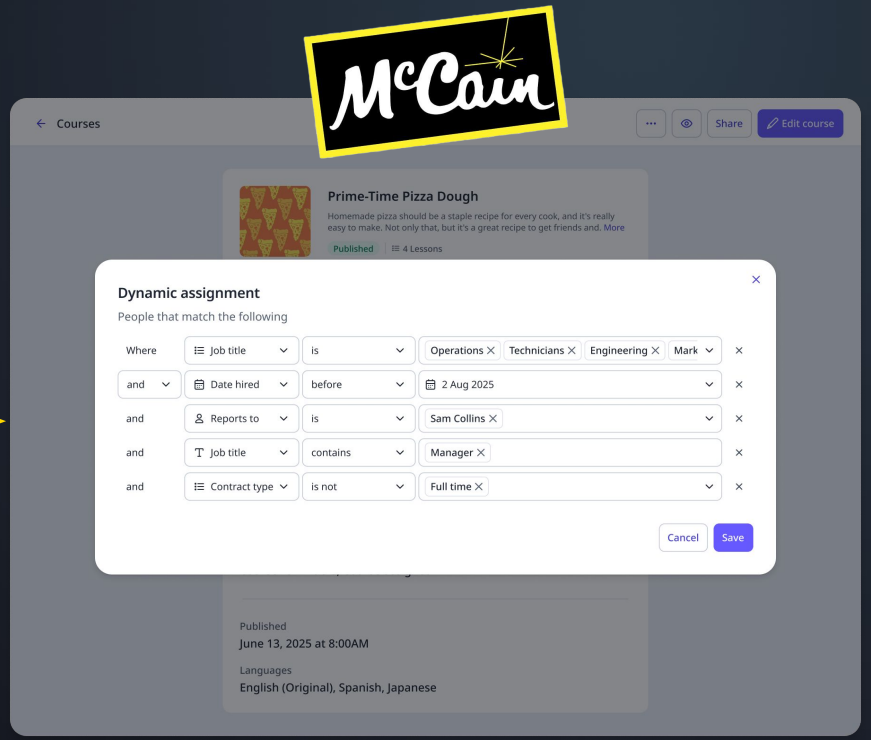
# For when you're too lazy to create 900 groups

It's faster, more targeted.

We're closing the gaps.

It makes us Enterprise ready.

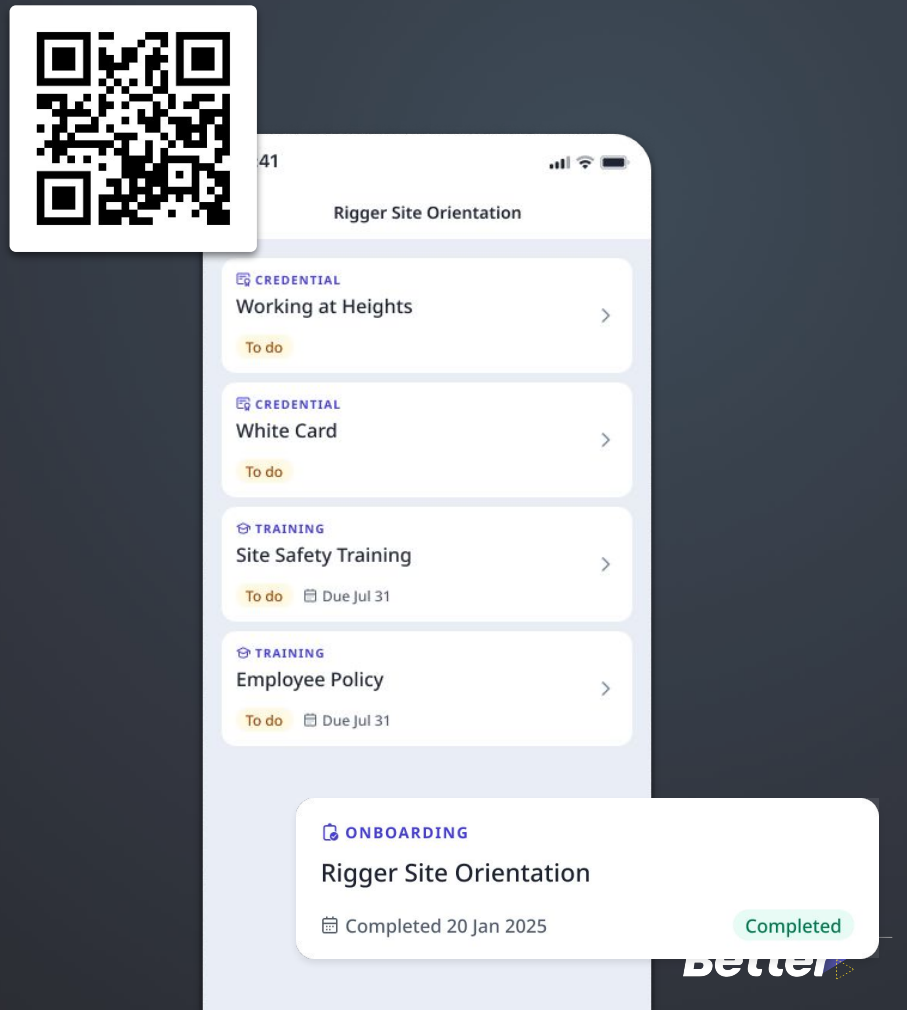




# Worker Onboarding

An automated **workflow** that guides workers through uploading the required **credentials** and completing role-specific **training**—with a record of completion available in their user profile.

**In development** | **Closed Early Access** | **Launch October**

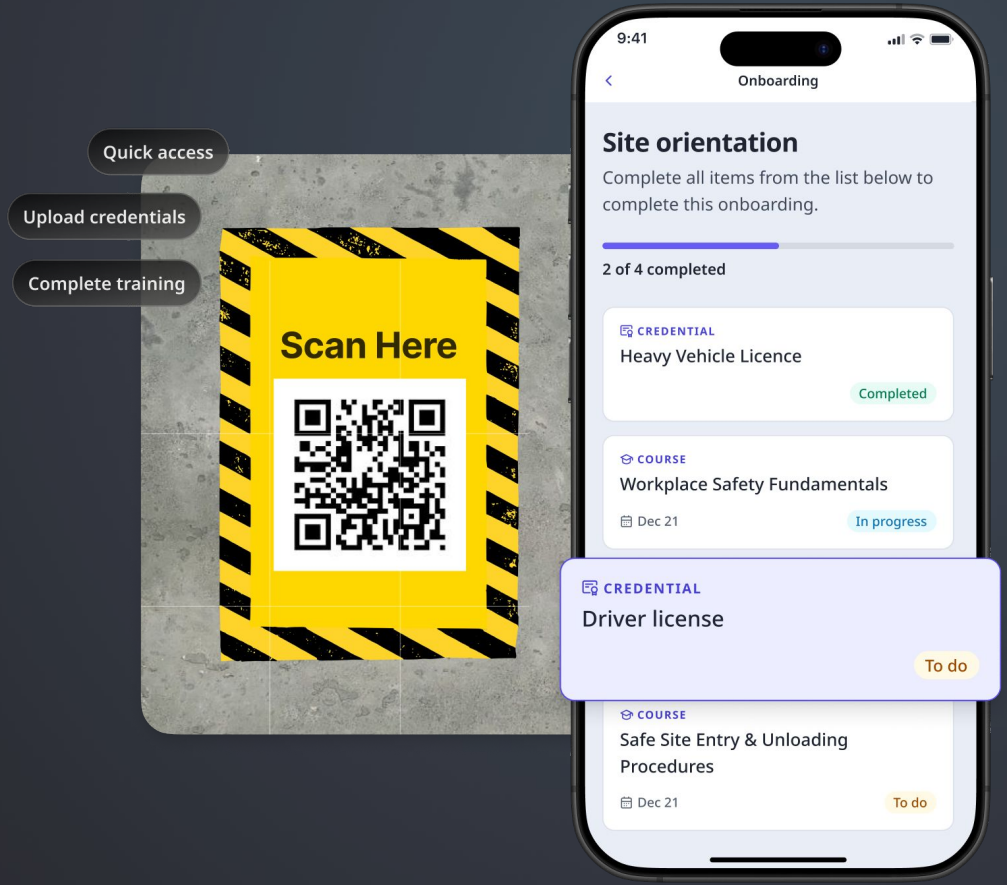


Worker experience 👷

# Complete onboarding

Worker
**Lite seat, Full Seat**

Training Permission
**Access**



# Let’s look at the following workflows

## Frontline worker

Accessible information to work safely and efficiently

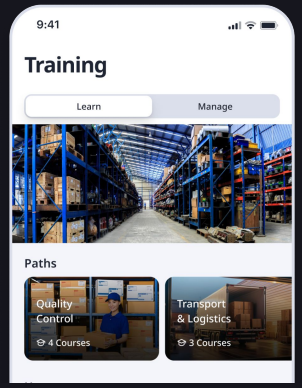
## Line Manager

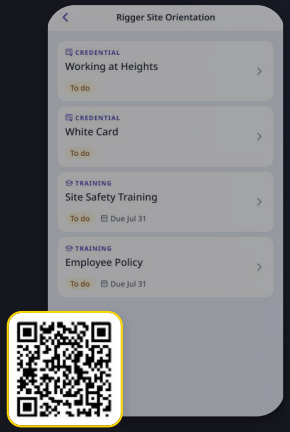
Keep teams in the loop, on track, and compliant

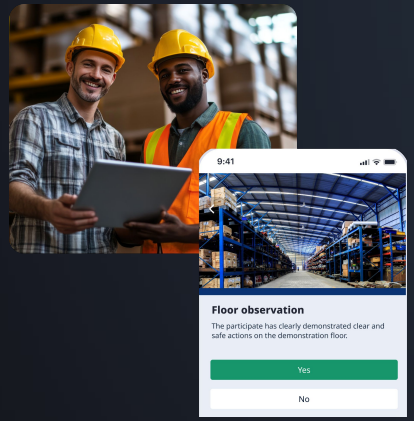
*Day in the life of a*

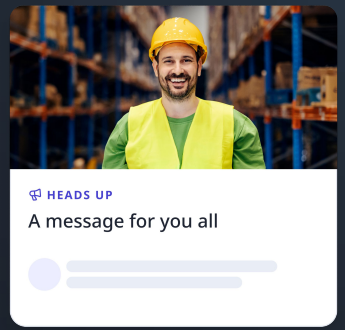
# Warehouse worker

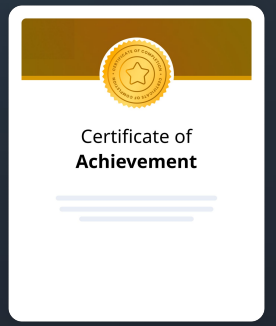
FRONTLINE WORKER











## Rostered

Worker assigned to a new area of the warehouse covering a shift for a fellow worker. Is able to bring up a path of relevant courses to that location & role.

## Onboarding Assigned

Scans QR code on equipment to pull up employee onboarding flow

## Checklist

Performs a quality check using Inspections checklist.Results are stored alongside Training and tasks for comprehensive reporting.

## Heads Up + Lesson

Following an incident on the warehouse floor the prior day, all workers receive a Heads Up asking them to complete a quick refresher on incident response best practices.

## Refresher

At the end of his day, with a few minutes to spare, worker completes a few refresher courses to upkeep or retrain skills.
